EXECUTIVE SUMMARYiv
TABLE OF CONTENTSxi
INTRODUCTION1
Recovery Unit Designation1
Geographic Description4
DISTRIBUTION AND ABUNDANCE11
Status of Bull Trout at the Time of Listing11
Current Distribution and Abundance11
REASONS FOR BULL TROUT DECLINE27
Dams27
Forest Management Practices29
Livestock Grazing33
Agricultural Practices34
Mining38
Residential Development and Urbanization39
Fisheries Management41
Isolation and Habitat Fragmentation45
ONGOING RECOVERY UNIT CONSERVATION MEASURES46
RELATIONSHIP TO OTHER CONSERVATION MEASURES47
Subbasin Planning47
Salmon Recovery Efforts47
State of Washington48
Biological Opinion - Federal Columbia River Power System51
Habitat Conservation Plans51

STRATEGY FOR RECOVERY52
Recovery Goals and Objectives53
Recovery Criteria58
Research Needs61
The Role of Artificial Propagation and Transplantation64
 ACTIONS NEEDED65
Recovery Measures Narrative65
 IMPLEMENTATION SCHEDULE81
 REFERENCES CITED98
 APPENDICES	
Appendix A - Recovered Abundance Estimates	110
Appendix B - List of Chapters	113

LIST OF FIGURES

Figure 1. Bull Trout Recovery Units in the United States2
Figure 2. Upper Columbia Recovery Unit3
Figure 3. Wenatchee Core Area and selected tributaries5
Figure 4. Entiat Core Area and selected tributaries7
Figure 5. Methow Core Area and selected tributaries10

LIST OF TABLES

Table 1.	Bull trout redd survey data in the Wenatchee River 1989 to 200114
Table 2.	Bull trout redd counts in the Mad River Index Reach 1989 to 2001, and Entiat River 1994 to 200119
Table 3.	Bull trout redd survey data in the Methow River 1992 to 200121
Table 4.	Recovered abundance estimates for migratory bull trout in Wenatchee, Entiat, and Methow core areas (Appendix A)112
